Ani Sajin

UI/UX Developer

Hey, I'm Ani sajin, an HTML Developer who's spent the past year immersed in the vibrant world of Times World Media Technology. With a focus on hospitality websites, I've become adept at ensuring mobile responsiveness and fine-tuning email templates to perfection. From creating fresh, captivating designs to resolving live website issues, I thrive on the challenges of the digital landscape. Let's collaborate on creating remarkable online experiences!

Times world media technology

HTML Developer

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with designers and back-end developers to implement user interfaces.
- Optimized website performance by implementing best practices and performance enhancements.
- Collaborated closely with designers and back-end developers to translate designs into functional user interfaces for email campaigns.
- Ensured the seamless integration of email templates with various email clients and devices, optimizing responsiveness and visual consistency across platforms.
- Fixed bugs and conducted thorough testing to ensure accurate rendering and functionality of email templates across different email clients and devices.
- Implemented best practices and performance enhancements to optimize email template performance, delivery, and engagement metrics for Marriott International Hotels clients.

PROJECT NAME : ISHRAQ

Role: HTML Developer
Description: Built a website using HTML5, CSS, Bootstrap 4, JavaScript, and jQuery.

PROJECT NAME : KUTTIES WORLD

Role: Designing
Description: I designed a mobile app interface using Figma, creating a user-friendly and visually appealing design. The app features intuitive navigation, modern aesthetics, and seamless interaction patterns to enhance the user experience.
Figma:https://www.figma.com/file/OKtFpmCWVIy2zP2959jqKZ/Untitled?type=design&node-id=0%3A1&mode=dev&t=FbFJxiC7e2yAPd1B-1

PROJECT NAME : PORTFOLIO

Role: HTML developer
Description: I crafted my portfolio website utilizing HTML5, CSS, Bootstrap 5, and integrated AOS animations for a captivating user experience. The site showcases my projects, skills, and expertise in a visually engaging and organized manner.
